Message From

**Dr. dr. Erwin Pradian, SpAn-TI,
Subsp.TI(K), Subsp.AR(K), MKes**

President of ISICM (PERDICI)

All praise be to God Almighty, whose grace and blessings have enabled the successful convening of the 17th Annual Meeting of PERDICI 2026. This year's meeting holds particular significance as it coincides with the **14th World Sepsis Day**. This global observance underscores the urgent need for early recognition, optimal management, and sustained international collaboration in addressing sepsis.

As a professional organization dedicated to the advancement of intensive and critical care medicine, PERDICI remains steadfast in its commitment to strengthening the competencies of healthcare professionals and promoting the implementation of evidence-based clinical practice throughout Indonesia. Through the scientific symposia, plenary lectures, expert panel discussions, and practical workshops featured in this meeting, we aspire to facilitate rigorous academic exchange, foster interdisciplinary collaboration, and contribute meaningfully to the continued improvement of critical care services nationwide. We extend our highest appreciation to the organizing committee, distinguished speakers, esteemed participants, supporting institutions, and valued industry partners whose dedication and collaboration have made this event possible. It is our sincere hope that this meeting will serve as a strategic platform to advance patient safety initiatives and enhance the quality of sepsis management in the years to come. We cordially welcome your participation and wish you a productive, inspiring, and impactful scientific meeting.

PALEMBANG 2026

REDEFINING CRITICAL CARE:
INNOVATION, INTEGRATION, AND IMPACT
17th Annual Meeting of ISICM

World Federation of
Intensive and Critical Care

Message From

**Dr. dr. Zulkifli, SpAn-TI, Subsp. T.I(K),
M.Kes, MARS**

Chairman of Organizing Committee

With profound gratitude, we are honored to convene the **17th Annual Meeting of PERDICI 2026**, which this year coincides with the **14th World Sepsis Day**. The theme of this meeting, "*Redefining Critical Care: Innovation, Integration, and Impact*," reflects our collective commitment to advancing the management of critically ill patients in Indonesia through contemporary scientific approaches, multidisciplinary collaboration, and the strengthening of healthcare workforce capacity.

On this occasion, we are also pleased to introduce the first scientific initiative of Perdatin South Sumatera Branch entitled "The First Symposium on Fluid Therapy, Critical Care, Intensive Care, Resuscitation & Pain Conference in South Sumatera for Longlife Education (**SOFT CIRCLE**)." This scientific forum is founded upon the philosophy "Where Knowledge Flows, Care Grows," underscoring our dedication to continuous education and improved service to the community, particularly in the field of critical care.

We sincerely hope that this meeting will serve as a dynamic platform for academic enrichment, exchange of expertise, and innovation, while further strengthening collaboration among clinical practitioners, academicians, and healthcare industry partners.

The invaluable support of our sponsors, distinguished speakers, participants, and all parties involved has contributed significantly to the successful realization of this event. May this series of scientific activities bring meaningful and sustainable benefits toward enhancing the quality of intensive care services in Indonesia.

Background

The Annual Meeting of the Indonesian Society of Intensive Care Physicians (PERDICI) serves as a strategic annual agenda aimed at strengthening synergy in the advancement and development of knowledge within the field of critical care medicine in Indonesia. In 2026, the meeting will be held concurrently with the 14th World Sepsis Day on September 09–13, 2026, as a strategic forum to enhance awareness, knowledge, and clinical capacity in the management of sepsis and septic shock.

This event will also be integrated with the 1st SOFT CIRCLE Palembang (Symposium on Fluid Therapy, Critical Care, Intensive Care, Resuscitation & Pain Conference for Longlife Education), designed as an interdisciplinary scientific forum and educational platform that emphasizes collaborative networking, exchange of clinical experience, and the development of both technical and non-technical competencies (including clinical decision-making) in intensive care practice. This initiative is formally proposed under the title: **“The 17th Annual Meeting of PERDICI in Conjunction with the 14th World Sepsis Day and 1st SOFT CIRCLE Palembang.”**

Objectives

1. To strengthen professional networking and collaboration among members of the Indonesian Society of Intensive Care Physicians (PERDICI).
2. To align vision and mission in the advancement of intensive care medicine in order to improve service quality and patient safety, particularly in sepsis management.
3. To provide a national scientific forum that promotes excellence in clinical practice within critical care medicine in Indonesia.
4. To enhance national awareness of sepsis through the observance of the 14th World Sepsis Day and to encourage the implementation of effective prevention, early detection, and management strategies.

RUNDOWN

ANNUAL MEETING OF INDONESIAN SOCIETY OF INTENSIVE CARE MEDICINE

PALEMBANG, 9–13 September 2026

Palembang : “Redefining Critical Care: Innovation, Integration, and Impact”

SCIENTIFIC PROGRAMME IF ISICM

DAY 1, Friday 11 September 2026

07.30 – 08.00	Registration	
08.00 – 09.00	Opening MC	
	Welcome Address Chairman of Organizing Committee – Dr. dr. Zulkifli, SpAn., KIC, M.Kes, MARS	
	Opening Address President of ISICM – Dr. dr. Erwin Pradian, SpAn., KIC, KAR, M.Kes	
	Keynote Opening Indonesia Ministry of Health	
	Official Opening Governor of South Sumatera Province	
09.00 – 09.30	Plenary Lecture 1 AI, Digital Health, and Intelligent ICU: From Data to Decision	
09.30 – 10.00	Plenary Lecture 2 Integrated Critical Care Systems: Bridging OR, ICU, Emergency, and Ward	
10.00 – 10.15	Coffee Break	
10.15 – 10.45	Industrial Symposium	
	1.Nutrition Strategies to Optimize Outcomes in ICU Patients Undergoing Major Surgery 2.The Role of Balanced 4–Oil Mix Lipid Contaning Fish Oil and Protein in Critical Illness	
11.35 – 13.00	Friday Prayer	
13.00 – 14.00	Lunch Symposium	
14.00 – 14.40	Paralel Symposium	Paralel Symposium
14.40 – 15.00	Discussion	Discussion
15.00 – 15.20	Pro–Con Debate Paralysis in the ICU: Dead od Still Necessary?	
	Pro : “Still Necessary”	Pro : “Early start improves outcome”
	Con : “Should be avoided”	Con : “Watchful waiting is more rational”
	Discussion	Discussion
16.00 – 16.15	Coffee Break	
16.15 – 16.35	Thematic Session Safe Mechanical Ventilation: Beyond The Tidal Volume	
	Driving Pressure : Still the Strongest Predictor?	Septic Shock Therapy Update: What Actually Changed?
	Mechanical Power : A Better Global Risk Marker for VILI?	Transfusion and Coagulation Therapy: Updated Thresholds and Target
	Surrogate Markers of Ventilation Safety at The Bedside	Therapies that Failed and What We Leaned
	Discussion	Discussion

RUNDOWN

ANNUAL MEETING OF INDONESIAN SOCIETY OF INTENSIVE CARE MEDICINE

PALEMBANG, 9-13 September 2026

Palembang : "Redefining Critical Care: Innovation, Integration, and Impact"

SCIENTIFIC PROGRAMME IF ISICM

DAY 2, Saturday 12 September 2026

08.00 – 08.20	Plenary Lecture 1 Value vs Volume Care: Choosing Wisely	
08.20 – 08.40	Plenary Lecture 2 Beyond Mortality in ICU Outcomes: Functinal Outcome and Quality of Life	
08.40 – 09.00	Industrial Symposium 1 TBA	
09.00 – 09.20	Industrial Symposium 2 TBA	
09.20 – 09.35	Coffee Break	
09.35 – 10.35	Paralel Symposium	Paralel Symposium
10.35 – 10.55	Discussion	Discussion
10.55 – 11.55	Lunch Symposium	
	1. TBA 2. TBA	
11.55 – 13.00	ISHOMA	
13.00 – 14.00	Thematic Session Critical Illmes in Pregnancy: When Obstetric Meets Intensive Care	Thematic Session Pediatric Critical Care: Not Just Small Adults, What's the Current Update?
	Obstetric Hemorrhage in ICU: Resuscitation and Massive Transfusion	Pediatric ARDS: Current Concepts and Management Update
	Severe Preeclampsia and Eclampsia: Critical Care Priorities	Septic Shock in Children: Evidence That Changes Practice
	Cardiovascular Collapse in Pregnancy and Peripartum Period	Neurologic Emergencies in Pediatric: New Insights and Practical Approach
	Discussion	Discussion
14.20 – 14.35	Coffee Break	
14.35 – 15.35	Thematic Session Neurocritical Care : What's the Updates?	Thematic Session Cardiac Critical Care : Cardiovascular Emergencies in the ICU
	Multimodal Neuro Monitoring	How to Manage Acute RV failure?
	Sedation and Brain Outcome	Arrhythmias in the ICU: Treat the Rhythm or the Cause?
	Post-Cardiac Arrest Brain Care	Microcirculation vs Macrocirculation: Are We Treating the Wrong Target?
	Discussion	Discussion

WORKSHOP

9 –10 September 2026

- Basic Mechanical Ventilation
- Pediatric Fundamental Critical Care Support (PFCCS)
- Fundamental Critical Care Support (FCCS)
- Current Diagnosis and Management of Sepsis
- Extracorporeal Blood Purification (CRRT)
- Advanced Clinical Approach to Fluid, Electrolyte, and Acid–Base Disorders in Acute and Critical Care
- Neurointensive Care Course
- Emergency and Critical Care Sonography
- Intravenous Access in ICU
- Percutaneous Dilatational Tracheostomy (PDT)
- Post-op Cardiac Surgery
- Bed-side ICU Procedure
- Respiratory Hemodynamic Monitoring in Critical Care
- High Quality CPR, Code Blue, and Early Warning System

11 – 12 September 2026

Fundamental Critical Care Support Obsetrics (FCCS – OB)

14 – 15 September 2026

- Nutrition Therapy Course in Critically Ill
- Fundamental Critical Care Support Course : Surgical (FCCS–SU)
- Bronchoscopy for ICU
- Critical Care Nursing Update 2026: Advancing Evidence–Based Nursing Care And Clinical Excellence In The ICU
- Pengelolaan Pasien Kritis dari Persiapan Sampai dengan Rawat Jalan

E-POSTER COMPETITION

ORIGINAL RESEARCH

CASE REPORT

GUIDELINES

Presentation schedule will be announced one week before event on Friday, September, 4th 2026 at official event website.

Poster Format: PDF

Page set up: Portrait, 2 kolom, ukuran A2 (549mmx420mm)

Font: The font used must be consistent and clearly legible.

Layout: Employ a grid-based layout to ensure systematic organization and optimal readability.

Color Scheme: Select a visually appropriate color scheme that maintains clarity and does not compromise legibility. Ensure adequate contrast between text and background elements.

Visual Elements: Incorporate high-resolution images and graphics that meaningfully support and enhance the scientific content, rather than serve as decorative fillers.

Number of Visuals: Limit to a maximum of 2–3 primary figures.

Image Quality: All visual materials must be of high resolution and clarity.

Relevance: Ensure that all visual elements directly support and reinforce the primary message of the poster.

Original Research: Introduction, Method, Results, Discussion, Conclusion

Case report: Introduction, Case Description, Discussion, Conclusion

All posters are required to include the event logo (BELIDI) on the poster.

Title Section

Alignment: Center the title at the top of the poster.

Additional Elements: Include the presenter's name(s) and institutional affiliation(s) directly below the title using a smaller font size (36–48 pt).

Results or Findings

- Content: Present the primary findings using graphs, tables, or concise bullet points. Emphasize key quantitative outcomes where applicable.
- Visuals: Ensure that all figures and tables are clearly labeled, legible, and easily interpretable.

Introduction or Objectives

- Content: Provide a concise background and clearly state the study objective(s), research question, or hypothesis using bullet points or short, structured paragraphs.
- Visuals: Include a relevant small image, conceptual framework, or schematic diagram if it enhances clarity.

Discussion

- Content: Provide a succinct interpretation of the findings, highlighting their clinical or scientific implications using structured bullet points or brief paragraphs.
- Visuals: Include supplementary diagrams or graphical summaries if they enhance understanding of the interpretation.

Methodology

- Content: Clearly describe the study design, population, procedures, measurements, and analytical methods using bullet points, diagrams, or flowcharts.
- Visuals: Incorporate a flow diagram, study schema, or methodological illustration to improve comprehension and transparency.

Conclusion

- Content: Summarize the principal conclusions and key take-home messages in concise bullet points or short paragraphs.
- Visuals: Use minimal visual elements only if they reinforce essential conclusions.

References

- Content: List references in a clear, standardized citation format appropriate for scientific presentations (e.g., Vancouver style).
- Visuals: Maintain a clean and minimal layout; ensure the reference list is well-organized and easily readable.

WORLD SEPSIS DAY

13th September

In an effort to enhance awareness of sepsis as a global health challenge, we are proud to organize the World Sepsis Day Commemoration as an integral part of the 17th Annual Meeting of ISICM. This initiative aims to educate both healthcare professionals and the broader community on the importance of early recognition, prevention, and effective management of sepsis.

Sepsis is a life-threatening medical condition resulting from a dysregulated host response to infection. Early identification and timely intervention are critical to improving survival outcomes.

The commemoration will feature a series of activities designed to strengthen understanding of the warning signs of sepsis, emphasize the urgency of prompt action, and highlight the shared responsibility of individuals and healthcare systems in prevention efforts. Through enhanced awareness and collaborative engagement, we aspire to reduce sepsis-related morbidity and mortality in Indonesia and promote meaningful improvements in both clinical practice and public awareness.

Public Awareness Campaign

Enhancing public knowledge regarding sepsis, its risk factors, and when to seek emergency medical attention. Information will be disseminated through social media platforms, educational materials, and interactive question-and-answer sessions with experts.

Medical Education Sessions

Dedicated workshops and seminars for healthcare professionals aimed at updating knowledge and clinical competencies in the management of sepsis, including the latest protocols, best clinical practices, case-based discussions, and simulation training.

Patient Stories and Testimonials

Sharing firsthand experiences from sepsis survivors and their families to provide personal and emotional perspectives on the impact of sepsis, while highlighting the importance of timely intervention, support, and recovery.

Innovations in Sepsis Management

Presentations on recent research developments, diagnostic technologies, and innovative therapeutic approaches intended to improve patient outcomes in intensive care settings.
